

For Foreign Residents in Hamamatsu who Wish to Start a Business

Applications for the Foreigner Entrepreneurship Promotion Project (Start-up Visa) are now open!

You will be able to stay in Japan with the “Specified Activities” Status of Residence for a period of up to of one year.

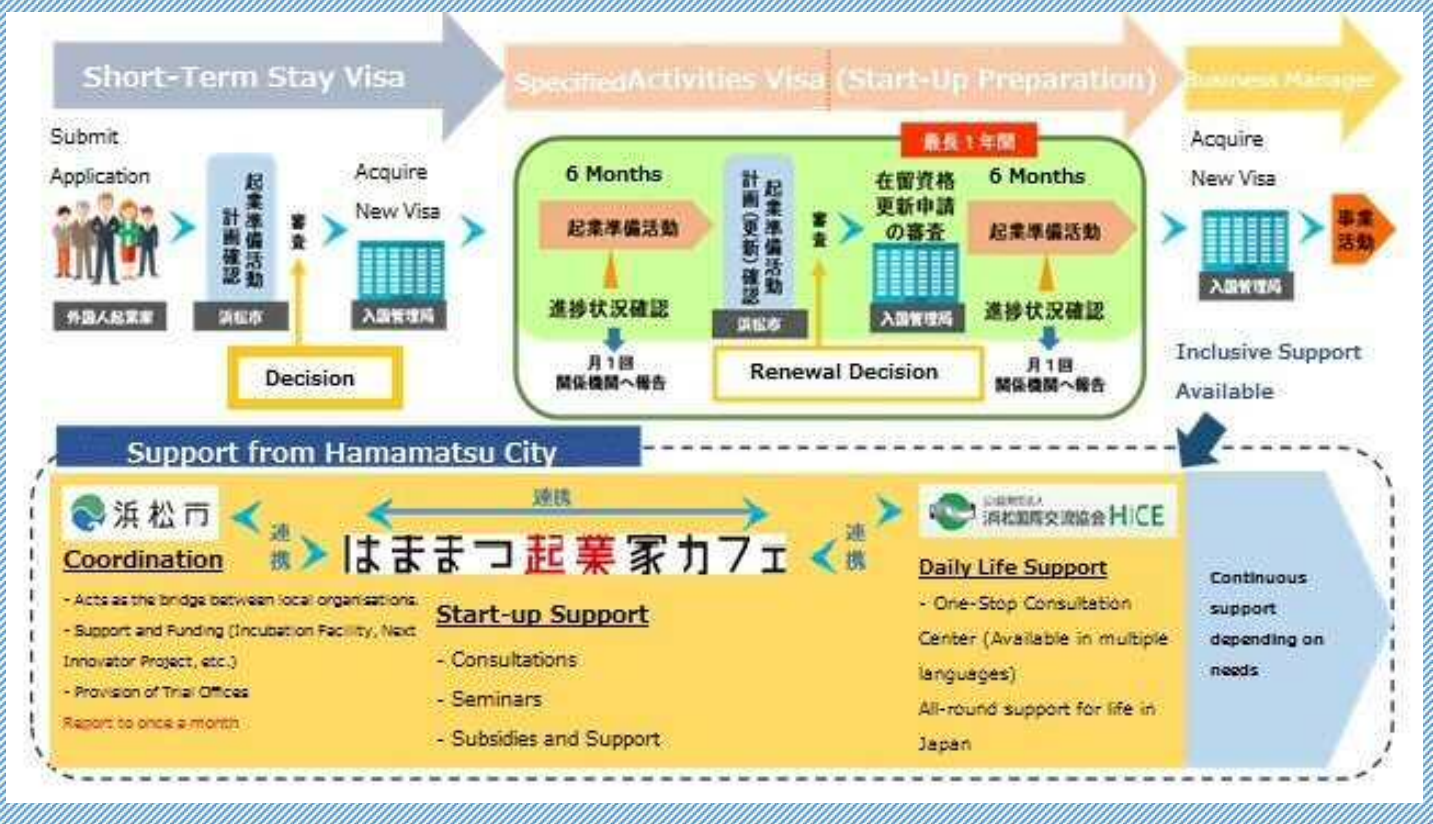

What is the Foreigner Entrepreneurship Promotion Project (Start-up Visa)?

The Foreigner Entrepreneurship Promotion Project is a scheme from the Ministry of Economic, Trade and Industry to be implemented at certified local government with the goal of increasing the acceptance of foreign entrepreneurs and the promotion of their businesses. Hamamatsu is one of the certified local governments.

For foreign entrepreneurs to acquire the “Business Manager” Status of Residence, they need to fulfil two conditions. They must own an office and have either 5,000,000 yen in investments or hire two full-time employees upon landing in the country.

In this project, foreign entrepreneurs will have to submit a Business Plan for the Start-up to Hamamatsu and if the city judges that the above condition for the “Business Manager” Status of Residence will be fulfilled within a one year period, a certificate will be issued to the applicant.

The foreign entrepreneur will receive a “Specified Activities” Status of Residence for up to a period of one year when they make their application at the immigration office by submitting the certificate along with other necessary documents
